Hello,

Changes have been made to the CRS Deliverable forms 578x, 578x, and 582x, the new versions of these forms are available on our website.

On all three forms, we have removed "email" from the Off-Site contact prompt. On 578x Adult Supported Employment, we added an area to describe natural supports on the last page.

We encourage vendors to download forms directly from our website below to ensure they are always using the most up to date version.
