Subject: Waiver of Case Trainings for CRS 2.0 Contract

In recognition of the extensive work and preparation required for conversion to the AWARE system, ACCES-VR is waiving the requirements for the remainder of the CASE trainings for the CRS 2.0 contract ending on December 31, 2023. Many of you have emailed us, inquiring when classes will be offered and if this will affect your contractual obligations. No further CASE trainings will be offered this year, and it will not affect your contractual obligations. We expect you will continue to train your staff internally, as you have always done, and we will resume CASE trainings when the CRS contract is ready in 2024.

We appreciate all the hard work your agency and staff have done and continue to do.
