

SSAN Coordination- RFP #24-004

Questions & Answers

Program Questions

Q 1). One of the deliverables for RFP #24-004 is “In partnership with NYSILC during the second year of the contract, October 1, 2025 – September 30, 2026 - b. Coordinate a targeted statewide public education campaign addressing a unique, emerging advocacy concern to the disability community. The campaign may address such topics as the implications for people with disabilities of legislation allowing for physician assisted suicide options, and may include strategies such as use of brochures, flyers, press releases, letters to the editor, and other communication options.”

This is not an objective of the 2024-27 SPIL and there is no funding included in year two of the contract to fund this activity. This was an objective of the 2017-19 SPIL and included in the 2016 Coordination RFP with funding. Can this deliverable be removed from the current RFP #24-004 and the contract that results from it?

A: Deliverable 5.b. has been removed from the RFP and the points redistributed. The updated RFP is reposted on the [ACCES Procurement Opportunities website](#).
